

## **VANADIUM ONE IRON ANNOUNCES COMBINED HARD DOLLAR and FLOW THROUGH PRIVATE PLACEMENT**

TORONTO, CANADA, October 17, 2019 – Vanadium One Iron Corp. (the “Company”) (TSXV:VONE), announces a proposed non-brokered private placement financing for aggregate gross proceeds to the Company of up to \$1,200,000 (the “**Offering**”), through a combination of common share units (“Units”) and Flow-Through shares. The Units will be priced at \$0.07 per unit and the Flow-Through shares will be priced at \$0.10 per share. Each unit will consist of one common share in the capital of the Company plus one-half of a common share purchase warrant. Each full warrant will entitle its holder to purchase one additional common share at an exercise price of \$0.11 for a period of 2 years from the closing date of the private placement. There can be no assurance that the Offering will be completed, whether in whole or in part. The Company may close the Offering in multiple tranches at the discretion of the Company.

Directors and officers of the Company may participate in the Offering. Accordingly, any such participation would be considered a “related party transaction” under Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions (“MI 61-101”). However, such participation would be exempt from the formal valuation and majority of the minority shareholder approval set out in MI 61-101 since at the time the transaction was agreed to: (i) the securities of the Company were not listed or quoted on one of the exchanges or markets specifically identified in MI 61-101; (ii) neither the fair market value of the securities to be distributed in the Offering nor the consideration to be received for those securities, insofar as the transactions involves interested parties, would exceed \$2,500,000; and (iii) the Company has one or more independent directors and, at least two thirds of said independent directors approved the transaction, as required pursuant to sections 5.5 and 5.7 of MI 61-101.

The Company will use the proceeds of the Offering to finance the Company's continuing exploration program at its Mont Sorcier Vanadium Magnetite project near Chibougamau, Quebec, to complete a preliminary economic assessment and for general working capital requirements.

Completion of the Offering is subject to certain conditions including, but not limited to, the receipt of all necessary approvals, including the approval of the Exchange and the securities regulatory authorities. All securities issued by the Company in connection with the Offering will be subject to a statutory four month hold period.
