## **URANIUM EXPLORATION AND OPTIONS TO PROCEED**

***Rouyn-Noranda, Quebec, Canada.*** GLOBEX MINING ENTERPRISES INC. (GMX - Toronto, G1M - Frankfurt, Stuttgart, Berlin, Munich, Xetra and GLBXF - U.S. Pink Sheets) is pleased to inform shareholders that both **Noront Resources Ltd. (NOT-V)** and **Hawk Precious Minerals Inc. (HAWK-CNQ)** have respectively completed initial airborne radiometric surveys on Globex’s Hunters Point (uranium-gold) and Grand Calumet (uranium-fluorite) projects and have informed Globex that they will be entering into the second stages of the option agreements. In both cases, airborne anomalies indicative of radioactive material were detected which require further exploration.

Globex has received the cash components per the option agreements and delivery orders for 250,000 shares of Noront and 250,000 share of Hawk to Globex have been issued.

Globex looks forward to the next stage of exploration on both of these uranium projects.

This press release was written by Jack Stoch in his capacity as a Qualified Person (Q.P.).

We Seek Safe Harbour.
