---

**7.85 g/t GOLD OVER 10 METRES  
ON GLOBEX'S NORDEAU PROPERTY**

**Rouyn-Noranda, Quebec, Canada. GLOBEX MINING ENTERPRISES INC. (GMX -Toronto, G1M - Frankfurt, Stuttgart, Berlin, Munich, Xetra and GLBFX - U.S. Pink Sheets)** is pleased to inform shareholders of drill results reported by Plato Gold Corp. (PGC - TSX-V) on Globex's Nordeau West gold claims in Vauquelin Township, Quebec.

Plato has reported to Globex that hole number PG-06-07 has intersected a **10 metre core length grading 7.85 g/t Au (32.8 feet grading 0.23 oz/T Au)**. This hole in addition to other holes provides further confirmation for the model of a steeply plunging higher grade mineralized shoot within the West Nordeau Gold Zone.

Plato reports that four en echelon gold zones have been indicated on the Nordeau West claims suggesting the main zone has a strike length of 400 metres and a down dip extension of at least 750 metres and is open both along strike and to depth.

Plato have completed 20 holes on three different areas of the Nordeau Property and are presently drilling hole 21, 120 metres above hole PG-06-07.

For further details, please consult Plato Gold's press release of today's date.

For details of the Globex-Plato option agreement consult Globex's press release dated May 24, 2006
